Keeping Up -- With Uplanders

NEW DIAL SYSTEM

Long distance telephone communication seems very fast to us but apparently it is not speedy enough and it seems there are too many delays. Thus we have the "Yukon" prefix here in anticipation of a new, streamlined system for use in 1954.

An explanation from the General Telephone Co. says this:

"The new toll dialing plan will permit an operator in any toll center to dial directly to many telephone numbers in the United States and Canada without passing the call through intermediate operators, thus considerably reducing the time necessary to complete long distance calls."

GRAND JURY

It is a real privilege to serve as a member of the San Bernardino county grand jury. It gives one a well rounded glimpse into many departments of this vast county. The real purpose, of course, is to help improve the service of all public agencies.

Jury members welcome suggestions from the general public. In other words if any local residents have ideas as to how any public agency or any political subdivision could improve its service, we will welcome comments. Also any serious complaints about services or officials' acts can also be reported.

SCHOOL BOARD WINNERS

Edward J. Pollack will be a valuable member of the Chaffey board of education as will also Mrs. B. G. Klepper, both of whom were given a high vote of endorsement in the district-wide school board election Friday. Mrs. Klepper was reelected and Mr. Pollack resident of San Antonio heights, and an Ontario civic worker, was placed on the board in the position formerly held by Melvin Dinger.

Theirs will be a difficult role because of the many and vital problems affecting the rapidly growing Chaffey school district. Building problems are only one small phase of their work. Personnel problems are important and the board members must seek to maintain a high spirit among a large staff.

Congratulations are certainly due them—and for the many months of service ahead.

C AND D STREETS

One year ago this week, The Upland News had this headline; "Start of Work on C and D streets in one year is seen."

And the people who said that were convinced that at last the final obstacles had been overcome to achieve this long-sought improvement. But frankly, nothing definite has been accomplished during the year.

It is time for officials to begin anew and definitely start extension of C street east. New demands appear for business property and there should be no unreasonable delay in getting this project started.

THANKS MR. JACKSON

Many news stories are suggested to us by interested persons. Take the interesting story, for example, about the wandering turtle that traveled nearly one mile in returning to its former home here. J. O. Jackson, 651 East Olive street, gave us a "tip" on that story.

We are very, very appreciative of the fine cooperation given to us by many news sources. And we are thankful for the thoughtfulness of Mr. Jackson.

NO DEATHS

For the first time in weeks there are no deaths reported in today's issue of The Upland News.

That was not the case, however, one year ago today when the death of the beloved Owen E. Atwood was reported. In the issue of May 22, 1952, this column closed this way; "Each Atwood leaves his imprint on the citizens and the community."

We have thought about Owen many, many times since a year ago and we have appreciated his valued imprint on my own life.

"HANDLE WITH CARE"

About this time last year we published a little ditty that deserves frequent recitation. Mrs. W. H. Froelich, 535 Eighth avenue sent it to us. It was entitled "Handle With Care" and went like this:

"Words and Eggs must be
handled with care.
"Words once spoken and eggs
once broken
Are the hardest things to repair."

POPPIES AGAIN

It will not be difficult for the poppy salesman to dispose of all their stock here Friday and Saturday. This is our annual opportunity to help the men, who are disabled because they fought for us. Our dimes and dollars will be a real gesture in helping to make their life richer.

FITTINGLY REMEMBERED

W. E. Boulton's ninety-second birthday anniversary was fittingly recognized recently by the University club in Claremont. He is among the new members, but the group quickly recognized him as an intellectual leader.

As a birthday anniversary present they gave him a life-time membership. The Uplander's life is a noble example for everyone.

Upland Pioneer Buys First Poppy

Mrs. J. E. Jordahl, Mrs. William Rohrig and Janet Jordahl are in the picture above as three-year-old Janet sells the first poppy in the current "Poppy Day" campaign to grandmother.

Poppy Day Sales To Aid Veterans

"When the people of Upland pin on their poppies on Poppy Days Friday and Saturday, they will be paying personal tribute to those who have died for America in three wars," said Ray Davis, Commander of Upland post of the American legion, urging everyone to wear a poppy on Friday and Saturday.

"Originally, the poppy, a wild flower which grew 'between the crosses, row on row," in the battle cemeteries in France and Belgium, was the memorial flower for the World War I dead," Commander Davis explained. "It was officially adopted as the memorial flower of The American Legion and Auxiliary soon after that war, and also as the memorial flower of the British Legion.

During World War II, the poppy came to be worn in memory of the dead of that war, no matter where they gave their lives, and now it is also the symbol of heroic sacrifice on the battlefields of Korea.

Made of red crepe paper in replica of the wild European poppy by the hands of disabled veterans of three wars, the little red flower not only honors the dead but aids the disabled veterans and needy children of veterans because contributions made on Poppy Days go to help support Legion and Auxiliary work for their welfare.

Three - Year - Old Miss Youngest Of Poppy Salesgirls

Youngest of all the girls selling poppies in Upland Friday and Saturday will be Janet Jordahl, three year old daughter of Mr. and Mrs. J. E. Jordahl, 1035 West Sixteenth street.

Janet was born three years ago on "Poppy Day." Now the little miss is big enough and very anxious to help her mother who is poppy chairman for the American Legion auxiliary.

Her first sale has already been made, that to Mrs. William Rohrig, known to the little miss as "grandmother". Mrs. Rohrig one of the pioneer residents in the community, resides at 1060 West Foothill boulevard.

Two From Here Sing In 'Barber Shop' Program Saturday

This society will present its first annual "Harmony Carnival" in the Fremont junior high school auditorium, Pomona, 8 p.m. Saturday. Dorothy Castillo, Claremont, is director, the only feminine director in the society's 300 chapters. A two-act musical show "The Secret Weapon", will be presented.

TURTLE TRAVELS FOR THREE WEEKS AND MANY BLOCKS

Pet Turtle Separated From Three Others Returns Over Long Course to Amazement of Local Families

Many are the stories about pet dogs and cats who have traveled great distances over unfamiliar territory to rejoin their masters, and now the LeGrand Fields of 952 Third place can tell a similar tale about a turtle.

Four months ago when Mr. Fields, an electrical lineman, was working on the desert near Palm Springs, he brought home three large desert turtles as pets for his seven-year-old daughter Vicki.

The three turtles were given free run of the Field's fenced back yard and were christened by Vicki as Grandad, Uncle Lee and Creepy.

Deciding that they didn't need all three of the pets, the Fields gave one to the Harlan Jacksons, 649 Highland court.

Since the Jacksons had no fence around their yard, Mr. Jackson drilled a small hole in Uncle Lee's shell and staked him out on a leash of strong fishing line.

Despite its strength, the leash did not hold Uncle Lee and a few days later he was discovered missing. The Jacksons and their sons, Gary and Mark, combed the neighborhood without success.

Uncle Lee was missing for three weeks, until one day when a neighbor of the Fields came to inquire if one of their turtles was loose.

When Mrs. Fields investigated, she found Grandad and Creepy safe in the yard, and Uncle Lee was in the middle of the street headed towards the house.

Settled in the fenced yard with his friends, Uncle Lee promptly retired into a corner and has acted sulky since, Mrs. Fields reports. The Fields plan to return him to the Jacksons.

"The reason my husband brought three in the first place was that he thought they would like company," Mrs. Fields relates, "but I don't know whether they like each other or not."

Mrs. Fields reports that the turtles are excellent pets and attract a great deal of attention from the children in the neighborhood. They eat grass and weeds in the yard, and ignore offerings of lettuce and carrot tops.

James Gallagher Is Head of Observer Corps in Ontario

Alex James Gallagher, 395 Ninth avenue, has been named supervisor of the Ontario ground observer corps. His appointment has been confirmed by the Ontario city council and he will succeed L. D. Kiersey, resigned.

Business Zone On Foothill Is Planning Issue

Shall the city permit the General Telephone Co. to locate its new building on the north side of Foothill boulevard 170 feet west of Euclid avenue?

Shall business be permitted on the southeast corner of Euclid avenue and Foothill boulevard?

These are among the major questions to be given at least a partial answer at the meeting of the Upland city planning commission next week. This will be the first hearing for the telephone company application in a change of zone from agriculture to commercial and it will be the second hearing for Raymond Kemming, owner of the property on the south side of Foothill just east of Euclid avenue. He seeks to get the zone changed from residential to business and thus accommodate offers to lease his property for commercial development.

Other requests will also be considered by the commissioners, including an application for a subdivision from Hubert Manker on Thirteenth street west of Euclid avenue. His request concerns property in the area scheduled to be zoned for lots of 10,000 square feet. His application conforms to the suggested size.

In an earlier announcement concerning this request, The News indicated the application was contrary to the suggested zoning. The application from Mr. Manker, however, is for a development in keeping with the master plan.

15-Acre High School Site To Be Cleared Soon

Twenty-five acres of the 40-acre site of the new Upland junior high school campus will be leased to the highest bidder at an early date and plans will be made to clear the remaining 15 acres.

Located between Eleventh street and Foothill boulevard, only a portion of the site which will be needed at present. Within six months 15 acres at the northeast corner of San Antonio avenue and Eleventh street will be cleared. It is this corner that will be first developed in building of the new high school in the community, according to Superintendent Dan B. Milliken.

A master plan in development of the site is being prepared and it will be several years before all the property is needed for educational purposes.

Skating Rink Surface Is Being Completed

One more coat of paint is to be applied to the surface of the city's skating rink at the Memorial park.

Use of the rink is normally not permitted until the close of school but if weather conditions are satisfactory the rink may be opened earlier.

Inquiries have been received at the city hall relative to opening of the rink and much interest is being shown in the activity.

Howard Collins Wins Jr. High Spelling Contest

Eighth-grader Howard Collins is the new spelling champion at Upland Junior high school as a result of his victory in the annual Upland News contest held Monday.

Young Collins, who is the son of Mr. and Mrs. Leon L. Collins, 1193 North Winston court, defeated the 14 other outstanding seventh, eighth and ninth grade spellers to win the title. He and other winners will receive awards from The Upland News.

Second-place winner in the old-fashioned oral spelling bee was Mike Shaler, son of Mr. and Mrs. Floyd E. Shaler, 711 Washington boulevard, and third place winner was Patricia Kearns, daughter of Mrs. Anita Kuhke of Ontario.

The contest was conducted by teacher Leon Gregory, and other students competing were Victoria Ribera, Elizabeth Buchenau Brenda Porter and Dan Nicholson, ninth graders; Barbara Rathman, Jean Carpenter and Jane Coltrin, eighth graders; Steve Stager, Marquita Ornelas, Marina Ornelas, Twyla Delozier and Kathleen Orr, seventh graders.

Upland Prepares To Place Local Entry In Picnic Parade

Definite arrangements for an Upland float in the All States picnic in Ontario June 27 were made last night at the meeting of the Upland chamber of commerce directors. The local entry will be part of the long parade that will pass in review before the thousands along Euclid avenue.

Charles Dunlap, chamber president, presided at the meeting and led the general discussion on details for the colorful entry.

The directors strongly endorsed placing an entry in the parade.

Plans for the summer activity in the chamber office were discussed.

Memorial Program

250 Crosses To Mark Graves Of Local Veterans

At least 250 white crosses will be placed on veterans' graves in Bellevue cemetery at 1 p.m. May 29 as a prelude to the observance of Memorial day on May 30.

Plans for an impressive and brief program are being made to provided a fitting honor to the memory of the men and women in the community who gave their lives for America.

An impressive prayer will be read and no principal speaker is scheduled.

Veterans Coordinating council is in general charge of arrangements and all patriotic orders in the district are expected to have representation in the program. Members of the various orders are to meet on G street at Mountain avenue prior to the program. A patriotic parade will go north on Mountain from A street and end at the veterans' plot in the cemetery. The Upland post of the American Legion firing squad will sound a salute to honor their buddies. A prayer, especially fitting for the occasion will be read and a Chaffey speaker will deliver Lincoln's Gettysburg address.

Francis Wilson, Upland tenor, will appear in selections and organ music will provide a fitting musical background for the memorial services.

Mrs. C. C. Sachs is secretary of the committee in charge.

Wife Demonstrates Husband's Invention

Mrs. Betty Ring, 965 North Second avenue, demonstrates the metal knitting bobbins which are the invention of her husband, Robert C. Ring. The bobbins, which are now being produced by a Los Angeles manufacturer, are made of a single piece of wire and prevent the yarn from unwinding. They also eliminate the need for a great many bobbins, and are said to be far superior to the plastic variety. The sweater and skirt in the picture were made by Mrs. Ring.

Knitting Bobbin Is New Invention Here

Contrary to the old saying, it was his wife's problems with her knitting rather than necessity that was the mother of invention in the case of Robert C. Ring, a mechanical engineer, who has a keen eye for efficiency.

Back in 1947 when his wife Betty was making him a sweater, Mr. Ring noticed that she used about 20 bobbins and lost a great deal of time rewinding yarn that slipped from the bobbins.

Thinking that there must be a better design for the bobbins, Mr. Ring busied himself with a strand of wire and a pair of pliers and soon came up with a bobbin that prevented the yarn from unwinding.

When she put the new bobbin to work, Mrs. Ring discovered that it not only prevented the yarn from unwinding, but it also helped avoid tangling and speeded up her knitting considerably.

A patent search revealed that evidently no one else had thought of this type of bobbin, and Mr. Ring was granted a patent on his invention.

He sold his idea to a Los Angeles manufacturer, and the one-piece wire bobbins are now being marketed in packages of 10.

"The packs sell for about $1 each, I think," "I have received one small royalty check but returned it and took some bobbins instead to give to friends as gifts."

Mr. Ring sold the right to manufacture the bobbins to Deco, a Los Angeles company, and he holds a royalty contract with them. He says that to his knowledge his bobbin is the only one of its type on the market.

In addition to the bobbin patent, Mr. Ring also has patents on several timing relays for military equipment which he invented when he was employed by General Electric Co.

Mr. Ring is now a consulting engineer with offices in Upland. He and his wife live at 965 North Second avenue.

John Merlo, 8411 Foothill boulevard, Cucamonga, has returned home from San Antonio hospital after major surgery.

"Watch Out for Poncho"

Deverts Thinks of Pet As Work Ending

"Watch Out for Poncho."

That expression came from Charles Deverts as his associates in the Upland post office honored him with a dinner and present. Thoughts of the 40 persons at the planned contributed dish dinner in the Firemen's cabin Monday night was on the veteran mail carrier and his 28 years of service.

Roy A. Ray, acting postmaster, presented Mr. Deverts and Mrs. Richard G. Manley, former acting postmaster, with presents.

In responding, "Charlie" moved deeply by the expression from his fellow employes, said in a serious voice, "Be sure to take care of Poncho."

For years, the little pet dog has been Mr. Devert's constant companion as he covered the sidewalk in his daily deliveries. The dog's faithfulness and Mr. Deverts' long service have been featured in news services across the country.

Mr. Deverts will be 70 years of age tomorrow and it is mandatory in postal regulations for him to cease his services at the time of the next pay roll period. For this reason, the husky, happy public servant will make his last mail delivery on May 29.

Poncho will be with him on the last route. Mr. Deverts is end-

Surplus Crops Placed Here As Buildings Used

Four packing houses in this area are being used by the Western Grain & Fertilized Co. for storage of surplus cotton and 125 freight cars of the crop are already in the Alta Loma Heights Citrus association buildings, the American Fruit Growers packing house and the California Wines building, all in Alta Loma.

The storage firm has purchased the two Alta Loma citrus association houses and the other buildings have been leased. Negotiations are under way for the acquisition of the fifth building in this area but no definite announcement has been made on the property in Upland.

Availability of the buildings for storage has attracted the firm to this area. A total of 225,000 square feet of floor space will be available if the storage company's plans materialize, according to reports.

At least 75 employes of the firm are at work in the four Alta Loma buildings.

Oscar Rudnick, Bakersfield cattleman and cotton grower and reported to be one of the west's wealthiest men, is head of the firm acquiring the local properties. Harold W. Smith is the local manager although his residence is in Helendale.

Persons close to the local freight business here reported that 400 carloads of cotton are to be stored here soon and that space may also be used for storing grains, cotton seed meal and beef. Since the packing houses have refrigerator units, beef storage would be feasible, it was pointed out.

The crops and products are termed "government surplus" and are stored for various limits to meet the needs of the nation, according to reports.

$5,700 Increase To City From Gas Tax Fund Scheduled

City of Upland will receive $33,310 from the state highway department for the next fiscal year, an increase of $5,700 over the year ending June 30, City Manager Richard G. Manley reported yesterday.

The increase is due to the boost in the city's population in accordance with the recent census. The city's population gain is nearly 2,000 over the total in the 1950 census.

Apportionments of gas tax funds are based on population.

The city will also get a share of the automobile licenses paid to the state.

Lloydella Lewis and Robert Vance Exchange Vows in Church Ceremony

In a beautiful ceremony held Sunday afternoon in the Upland Methodist church, the Little Cathedral of the Foothills, Miss Lloydella Lewis, daughter of Mr. and Mrs. A. Lloyd Lewis, 1570 West Seventh street, became the bride of Robert D. Vance, son of Mr. and Mrs. Charles L. Vance, Jr., 549 North Second avenue.

Dr. Ralph W. Lee, pastor, read the double-ring service at 3 o'clock. Two large baskets of white stock and gladioli, with four branched candelabra, decorated the church chancel, and on the altar were two bouquets of white daisies. A white silk rope with clusters of white stock marked the pews for members of the families.

As the guests were assembling, Mrs. Earl D. Hess, organist, gave a prelude of appropriate music, and played the traditional wedding marches for the entrance of the bridal party and the recessional. She also accompanied the vocalist, George Geer, who sang, "At Dawning", "Through the Years" and "The Lord's Prayer".

Given in marriage by her father, the bride was lovely in a strapless dress of white eyelet embroidery, with a redingote of white organdy trimmed in eyelet. She wore eyelet embroidery mitts. Her fingertip, off-the-face veil was held in place by a beaded crown of eyelet. She carried two white orchids with knotted satin streamers on a white Bible.

Miss June Burpee attended the bride as maid of honor. She wore a ballerina-length dress of white lace over light green taffeta, and carried a bouquet of yellow daisies.

The bridesmaid was Mrs. Jerre Crosier of Ontario, sister of the bridegroom, whose dress was identical to that of the maid of honor's. She also carried a bouquet of yellow daisies.

Little Janet Elizabeth Gibson acted as flower girl. She wore a short dress of yellow polished cotton, and carried a white basket of marguerites.

Robert G. Lewis of Ontario served the bridegroom as best man, and ushers were Donald L. Bowers, Jerre Crosier and Ryal Poppa.

The mother of the bride wore a beige linen dress with flowered hat to match, and a corsage of green cymbidiums. The bridegroom's mother chose a cocoa silk shantung dress, with beige accessories, accented by a corsage of brown cymbidiums.

Following the nuptial rites, a reception was held in the church parlor, where clusters of yellow daisies and candles decorated the refreshment table. After the bridal couple had cut the first slice of the three-tiered wedding cake, topped by twin wedding bells according to tradition, Mrs. Albert Joslynn continued the cutting and serving. She was assisted by Miss Mary Gear. Miss Rilla Stickney presided at the punch bowl, and Mrs. Jack Van Dyke had charge of the guest book.

When the newlyweds left for a week's honeymoon in Monterey and Yosemite park, the bride was wearing a beige print shantung dress with black accessories. On their return they will be at home to their friends at Apt. 27, 541 Flora street, Ontario.

The new Mrs. Vance, who is employed at Convair, Pomona, attended Hutchison, Kansas, junior college, and was a student at Washington University, St. Louis, Mo., for two years, majoring in art.

The bridegroom attended Chaffey College and the Art Center in Los Angeles, and is a voice student at the Los Angeles Conservatory of Music. He served with the U. S. Air Force in the European theater during World War II, and also served in the Korean conflict. He is employed by the Southern California Aircraft corporation in Ontario.

Miss Lloydella Lewis exchanged wedding vows with Robert D. Vance Sunday afternoon in the Little Cathedral of the Foothills. She is the daughter of Mr. and Mrs. A. Lloyd Lewis, 1570 West Second street.

New Parking Plan Offered Uplanders

Seeking to provide adequate off street parking facilities in the presently developed business area, a new movement was started here Tuesday night.

definite plan for obtaining funds for use in acquiring land was offered at a meeting of merchants and property owners in the city hall with George Haack, serving as chairman. The plan, details of which have not been completed, will involve the cooperation of owners of the business property and tennants.

Henry Busch, city attorney, was present to discuss legal phases and practical application of the suggested program.

Mr. Haack said it would require several months time to bring the plan into realization but that first indications pointed to its ultimate success.

"We realize the answer to future business growth is providing adequate parking facilities," Mr. Haack said yesterday. "Property owners and merchants realize this. A practical plan has been offered and those who know of the details are optimistic."

While there is nothing "secret" in connection with the proposal, it was generally conceded that no public explanation of the plan would be feasible at this time and that full details will be announced as soon as decision has been reached on many phases of the project.

"You can assure the buying public," Mr. Haack said "that Upland merchants are aware of the need and that suitable parking facilities are being planned."

Mrs. Gilliland will extend a welcome to the guests, and will introduce Dr. Ralph W. Lee, pastor of the Methodist church, and Harold W. Cook, superintendent of Upland schools.

Morning speaker will be Mrs. Joseph S. Hook, editor of the California P T A. magazine, whose subject will be "Families Furnish Community Leaders".

Luncheon will be served by the Woman's Society of Christian Service of the church.

From 1:45 to 3:45 o'clock there will be conferences to instruct all new P T A. officers and committee chairmen.

Mrs. Gilliland also announces the Honorary Life Membership dinner which will be served at 7 p.m. in the Chaffey high school cafeteria. Mrs. Henry will preside, and Ernest A. Payne, high school principal, will give the invocation. Music will be furnished by a mixed chorus of the high school.

Highlighting the evening will be the presentation of two honorary life memberships from the district by Mrs. Lester Schnore, chairman of that committee.

Dr. Richard Barbour, director of guidance for the San Diego schools, will address the group on "Common Problems of Normal Children".

Bigger Crowd At Picnic Likely

More interest than in former years is being shown in the All States picnic in Ontario June 27, Verle Haynes, Upland, said in reporting on the progress of the smooth working organization.

"Due to the increased interest I think the attendance will be greater than last year," said Mr. Haynes, who is chairman of the registration committee. "I counted people in a few blocks last year and by multiplying the number of blocks filled with people down Euclid avenue I made an estimate of 65,000 people."

Mary Seale, Chaffey sophomore student, has been named queen of the picnic. She is from Fontana and was chosen for the top honor from among the 45 queens representing the states.

Mr. Haynes said that soon after the picnic is held a decision will be made for next year's date and that it will not be held on a Saturday in the future. July 4 has been suggested as a likely date for future events.

30 Block Wardens See Film On CD Communications

"I have got a lot of 'walk' in me yet, even though the government may not think so," Mr. Deverts observed.

In any event, 40 persons were present to honor him and to pay their deep respect to Mrs. Manley, who recently retired from the position with the appointment of Mr. Ray.

12 Teams To Play in Two Leagues

Baseball, Softball Season Open Soon

With the beginning of softball and baseball seasons soon, all age groups in the community will have an opportunity to participate in the summer recreation program. Little league and Pony league play is now under way, and minor league play will begin after school is let out for summer vacation.

Opening game of the Upland Softball league season is scheduled for June 2, according to Francis "Squeak" Wilson, who is handling softball arrangements with Recreation Director Truck Lindsay. Softball games will be played each Tuesday and Friday night at the Upland Memorial park diamond, with six teams sponsored by local business houses and churches participating. Scheduling for the softball games is now being done by Kenny Smith.

Six Baseball Teams

A summer baseball league will also be maintained for all players 15 years of age or older. Three Upland teams will participate, with one sponsored by the Upland American Legion post. Local sponsors are now being sought for teams which will be managed by Odis Baker and Ray Baker.

Also playing in the baseball league will be a team sponsored by Douglas Aircraft and one sponsored by the Pomona American Legion post. Mr. Smith, who is in charge of the league, says another Ontario team is also expected to enter the league.

The baseball games will be played at John Galvin park in Ontario on Saturday nights and at both the Ontario park and at Upland Memorial park on Sunday afternoons.

Minor League

For the youngsters who were not chosen for Little league or Pony league teams, a minor league will be held again this year, with games to be played in the afternoons at Upland Junior high school. The minor league season opens June 15.

Antimites Win; First Game Tie

By Mike McFadden

The Legions and Elks' entries in the Upland Pony League, due to a lack of time, battled "even-stephen" through six full innings last Saturday at Upland Memorial park. The Elks had a lead of 6-2 going into the bottom of the fourth inning but the lead relinquished within the next three frames. Ken Brown for the Elks and Jackie Mauch for the home team Legion shared hitting honors with two hits in three at-bats each.

Antimites Associated pounded three pitchers into submission in the nightcap of the evening's festivities, the final score being 10-2. Red Hunter twirled a three hitter as Antimite won its first league game. The winners enjoyed a five run fourth inning to ice the tilt. Tom Boswell and Mike McFadden took hitting honors with two for three apiece.

Lynwood Coach Named Chaffey Football Head

John T. Tinson, 44-year-old veteran of 20 years of high school coaching, was appointed Tuesday night as head football coach at Chaffey high school for 1953-54.

Mr. Tinson, who was superintendent Dan Milliken's second choice for the post of Chaffey college's coach, was chosen from 35 applicants. He succeeds Ted Runner, who has resigned to coach at the University of Redlands.

Currently teaching science at Lynwood high school, Mr. Tinson has coached high school squads in Ohio, Pennsylvania, Kentucky, New Mexico and California. His record shows 132 games won, 29 lost, and 12 tied.

In addition to personal playing experience in high school and college, the new Chaffey coach played professional football with Chillicothe and Portsmouth, Ohio, for four years, and also has four years of professional basketball and boxing and two years of professional baseball.

Mr. Tinson is married and has four girls, and has been active for several years in community activities.

Assistant College Coach

William Gable, Jr., of Evanston, Illinois, was named by the board of education as assistant football coach for Chaffey college. He will also teach physical education at the college and the high school.

Now a line coach for the varsity football squad and head coach for the JV basketball squad at Evanston Township high school. Mr. Gable was graduated from the University of Wisconsin in 1952, where he was a member of the varsity football squad.

Permit Given For $30,000 Rock Plant Here

Construction of a $30,000 rock and sand plant at 1465 East Sixteenth street was authorized in a permit issued this week to the Central Rock and Sand Co.

The property on which the plant will be built is owned by the San Antonio Water Co., and according to information from Manager Don Adams, a Baldwin Park firm holds a 10-year lease on it.

Owner of the lease is the Glavnick and Ayala firm of Baldwin Park

Plans for the plant call for two large bunkers and numerous conveyor belts. Mr. Adams reported that according to information from the Glavnick and Ayala firm the plant will be completed within 90 days.

Four U. S. Presidents, John Adams, Jefferson, Madison and John Quincy Adams, lived to be 80 years of age or older.

Emergency CD Radio Operation Explained by Chief

When the air raid alert sounds in Upland, residents should turn to 640 or 1240 on their radio dials Assistant C-D director Howard Paulin says in explaining "Conelrad," the civil defense operation designed to confuse enemy aircraft.

Chief Paulin points out that through a radio hook-up, almost all the AM broadcasting stations will broadcast only on 640 and 1240 frequencies to prevent enemy aircraft from finding possible targets by following radio beams in an air raid.

Radios will be "dead" except on two frequencies, and many stations will broadcast the same programs or emergency announcements alternately for a few seconds, so that aircraft will be unable to follow the radio beams.

"Conelrad" is now in operation nationwide, Chief Paulin explains, and residents should turn to 640 or 1240 on their radios either on a three-minute blast of the fire siren or when radios go "dead" on other frequencies.

The man who is born with a silver spoon in his mouth often finds it hard to swallow the little difficulties in life.

Duplex, Three Homes Among Week's Permits

Upland's 1953 construction figure was swelled considerably this week as permits were issued for a duplex, three new homes and a $30,000 rock and sand plant on East Sixteenth street. The week's building total was $58,950.

Permit for the duplex at 170 Fifth avenue went to William Smith, 262 Eleventh street. The wood frame dwelling will have eight rooms and two bathrooms, and will be built at an estimated cost of $10,000.

Oscar Youngdahl, 911 East Ninth street, received permits for two new dwellings in the 900 block of East Ninth street. Each of the dwellings will have four rooms and a bath.

A permit for another four-room dwelling went to Ida E. Stevens, 420 North Campus avenue. Contractor for all three homes is Pomona Builders.

Bill Schneider, 669 East Arrow highway, received a permit for a garage and Claude Jennings, 910 North Tenth avenue, was issued a permit for a carport.

Largest issue of the week was the $30,000 permit to the Central Rock and Sand Co. for a plant at 1645 East Sixteenth street.

Other permits went to John J. Maurer for a poultry shed at 466 North Benson avenue; to Oscar J. Gude for alterations at 906 East Arrow highway; to J. J. Kelley for alterations at 692 North Campus avenue; and to W. J. Ledig for additions and alterations at 762 East Ninth street.

$1000 Given To Hospital by Club

The Upland Woman's club started the ball rolling for the enlargement of the pediatrics department of the San Antonio Community hospital by making the first donation towards this project, when it presented a check for $1,000 to Dr. A. A. Aita, administrator of the hospital.

With the recent enlargement of the hospital and the continued growth of the community, the need becomes more and more acute for this unit and for special equipment for the care of children, which will eventually include isolation facilities.

Hospital Group Gives $1800 To Sick Baby Fund

Highlight of the annual luncheon meeting of the Woman's Auxiliary of San Antonio Community hospital, held Tuesday afternoon in the hospital solarium, was the presentation of a check for $1,800 to Dr. A. A. Aita, hospital administrator and treasurer for the Sick Baby Endowment fund.

Dr. Aita gave a brief report of hospital activities for the past year. During 1952, he said, 5,500 persons were treated. Discussing the future, he estimated that it will take $850,000 to cover the 1953 budget.

Mrs. Jack Craig reported on the recent May dance, at which $685.61 was realized. Mrs. Cletus Gallagher reported that 55 organizations are members of the auxiliary, and Mrs. E. F. Pelton reported 138 individual members.

Eleven babies have received care at a cost of $1,889. Mrs. Earl H. Johnson said in telling of the work of the Sick Baby fund. She said that the free bed fund has provided treatment for three cases at a cost of $1,162.

Presiding in the absence of Mrs. Leslie Hoag, president, Mrs. S. A. Craig welcomed the guests and turned the gavel over to Mrs. Daniel B. Milliken, the new president for the coming year. Serving with Mrs. Milliken are Mrs. Cletus Gallagher, first vice president; Mrs. Lowell Emmons, second vice president; Mrs. Frank Taylor, Jr., third vice president; Mrs. Ralph D. Ryan, secretary; Mrs. Jack Craig, treasurer; and Mrs. H. A. Ledig, Mrs. E. L. Wadsworth and Mrs. A. L. Weber, board members.

Large bouquets of crimson, gold and cream colored roses provided decoration for the buffet luncheon, attended by more than 100 guests.

After residing in Upland for the past six years, Mr. and Mrs. J. C. Weber, 445 North Second avenue, have decided to return to Denver, Colo., their former home. Mr. Weber left about two weeks ago, and Mrs. Weber will join him soon. She will be accompanied on the trip by her daughter, Mrs. Lewis Jenison, 457 North Third avenue.

No one is positive what caused the ice ages of the earth, but it is known that dust can be sprayed into the upper atmosphere by volcanic action and that a quantity of such dust could reduce the intensity of solar radiation to the earth by about 20 per cent and materially reduce the earth temperatures.

General Electric Layoff
Many People in Ontario and Upland Area Are Asking About The Temporary Layoff at General Electric
THE FACTS ARE:
1. 6% of Ontario G.E. Employees were temporarily off due to lack of work last week.
2. Those employees temporarily laid off and having more than one year's service totaled less than 1-10 of 1%.
3. Reasons for the layoff are:
(a) Lack of material for one essential part (This kept one assembly line closed)
(b) Revision of some mechanical equipment (This completely closed two areas)
4. Below normal production is expected to continue for several weeks.
We want to assure our Ontario friends -- both employees and others -- that the early return to normal production is being pushed to the best of our ability.

THE WORLD'S BEST CITRUS COMES FROM UPLAND

With high mountains in the background, a portion of the densely tree-covered citrus area is shown in this airplane view. Only the northern portion of Upland is depicted here.

From these groves are picked annually the finest oranges and lemons. Upland citrus fruit is in top demand in markets of the nation. More than a three square mile area is solidly covered with citrus trees. While many citrus groves have been "budded to bungalows," Upland's citrus producing area is virtually intact, and its top-condition trees are outstanding producers.

Get Acquainted With Industry

Due to the large number of newcomers in Upland, many people here are not aware of the vastness of the local citrus industry. Citrus association members and managers invite all interested persons to visit the packing houses and to get acquainted with the local industry. More than 1300 persons are now employed in the harvesting of the navel orange crop and the lemons.

$2 Million To Be Spent On S.A. Dam Within One Year

Giant Project Plans Ready For Huge Outlay

Construction work on San Antonio dam, the giant project at the mouth of San Antonio canyon north of the city, will cost $2 million within the next 12 months.

Already $1½ million has gone into construction of the mammoth concrete and steel structure, and the federal budget calls for allocation of an additional $2 million for the fiscal year beginning July 1. The county has asked for $3½ million.

The government-financed project will cost an estimated $7,700,000 to complete, and when finished will hold back run-off from mountain floods to protect an area valued at more than $150 million.

When completed, the dam will protect this area from the mountain drainage section of 27 square miles, having a storage capacity of 9,110 acre feet, 7,110 of this for flood waters and 2,000 for debris.

The dam will stretch across San Antonio Creek at the canyon mouth 3,850 feet between the canyon walls, and will rise 160 feet above the stream bed.

When completed the dam will provide flood protection to six cities and several smaller communities directly in the path of the stream. Also to be protected are three transcontinental railroads, an inter-urban electric line, and three major highways.

In the flood of 1938, Ontario-Upland damage was estimated at $1,687,000, and because of the recent growth of this area, an uncontrolled flood now would cause far more damage, according to flood control authorities.

Francis Line is shown above at the site of the "Eagle Rock", near the city of Eagle Rock. The former Uplander is developing the historic spot into one of the southland's attractions.

Francis R. Line, long-time resident of the district and who has purchased the "Eagle Rock" on leaving the community, has announced that the scenic location is being formally opened to the public every week end. The rock, shaped like an eagle, was the corner marker of the first Spanish land grant in California. The 20-acre tract around the rock has been developed into an outstanding show place. Doxens of special attractions will be offered of interest to visitors. The showplace is on Colorado street immediately west of Pasadena. The nominal admission charge will be used entirely for development and further beautification of the Eagle rock. In the picture above, Mr. Line is shown standing before the Eagle rock.

Bank To Delay Definite Plans For Building

Preparation of detailed plans for the new Bank of America building in Upland will await official completion of the escrow in the transaction and other factors, B. F. Lane, head of the bank's properties department, said from his Los Angeles office yesterday.

"It is very likely definite plans will be started at an early date but not until the present tenant of the property finds a suitable location," Mr. Lane said.

June 6 is the date for completion of the escrow in the bank's purchase of the property on the east side of Second avenue from C street to the Pacific Electric right-of-way. This property is now occupied by the Alan A. Couch Chevrolet agency and others. Announcement of the escrow proceedings was in The Upland News last week.

Only the bank will occupy the new building, no provision being made for any tenants if the usual policy is followed, Mr. Lane said. Adequate parking facilities will be provided in the plan.

In the meantime, Alan Couch and Owen Davis, owners of the Chevrolet agency, are seeking to find a location to which they can move after 23 years at one address.

Going first to Flint Michigan, they picked up a new station wagon, and then motored to Washington, D. C. Leaving their car there, they went by train to New York City, where they enjoyed a two-week stay. Returning to Washington, they drove to Williamsburg, Va., and then traveled leisurely through the south toward home. In Dallas, Texas, they picked up Mr. Thompson's brother, Guy Thompson of Laguna Beach, who had been visiting with his daughter. When they were in Shreveport, La., they were only 25 miles from where the big tornado struck.

Salesman Short $5 After Bout With Short-Change Artist

Upland police were searching yesterday for a short-change artist who duped Marvin Decker, a salesman at Upland Feed and Fuel store, out of a $5 bill. Mr. Decker told officers that shortly before noon a man of medium build, wearing khaki jacket, came into the store and made a small purchase. The customer then asked Mr. Decker to give him a $5 bill for five $1 bills.

Mr. Decker handed the suspect a $5 bill, and the suspect gave the salesman four $1 bills and a $5 bill, and, keeping the $3 bill which Mr. Decker had given him, gave the salesman another $1 bill and asked for a $10 bill so he could send it to his brother."

The salesman presented the suspect with the $10 bill, and after the customer had left the store, he discovered that he had come out of the shuffle short one $5 bill.

Mr. Decker called police immediately and officers were searching the downtown area within five minutes after the suspect left the store, but they were unable to locate him.

The salesman told officers that the suspect was talkative but very nervous during the money transactions.

Public Hearings On Zoning Ahead For Uplanders

Master Plan Adopted and City Planners Will Hold Public Hearings

Public hearings on the city's new zoning laws are in prospect for the community and from two to four months time will be required before the recently adopted master plan becomes an actuality.

The city council is scheduled to formally adopt the master plan at its meeting tonight. The councilmen, in a 3 to 2 vote two weeks ago, approved the measure and a resolution will be offered to legally establish the long-discussed master plan.

Resolution officially adopting the city's master zoning plan will be offered at tonight's city council meeting and its passage will bring to an end one phase of the local zoning question.

The next chapter in outlining the city's future growth will open with the city planning commission one week hence. Proposed zoning laws setting up the actual procedure in carrying out the spirit of the master plan will be prepared by Charles Eliot, city planning consultant.

Two public hearings will be held by the commission and one will be held by the city council before the new zone laws are adopted.

Persons interested in getting changes made in the proposed zoning laws will have an opportunity to appear at the public hearings and express their views.

Parkside Windows Brooken By Vandals Damage Set At $300

Vandals have broken windows valued at almost $300 in the Parkside housing project recently, according to a report filed with Upland police by Otto Roen, executive director of the Upland Housing Authority.

Mr. Roen told officers that most of the damage was believed done one night last week, but that youngsters had been observed throwing stones at windows on several occasions.

New Bank Building To Be Major Improvement in Community

Change in location of the Bank of America concerns more than just the local employes and patrons of the financial institution. The bank's decision to construct a new building here is regarded as one of the most important developments in the business community for many years.

Purchase of the business property on Second avenue from C street to the Pacific Electric right-of-way by the bank very definitely affects the entire business community. Owners of Second avenue property north of C street are jubilant over the certainty of obtaining an attractive new business building with adequate parking facilities.

The new bank building also means other changes. The long-established Alan A. Couch Chevrolet agency must find a new location and Mr. Couch and Owen Davis, the owners, are making tentative plans for a big improvement.

What will be located at the present location of the bank is unknown but in any event structural changes are likely.

Incidentally, it's a historic move that is scheduled for the local bank. Site of the city'c first financial institution is at the southeast corner of Second avenue and Ninth street. Where the bank now stands was started in the early years of this community, Upland's first bank.

And so the new bank building is only one of many improvements ahead in Upland.

Top Man In Eisenhower Cabinet Rated by Observers

A man whom President Eisenhower did not know until a short time before his inauguration is today rated the 'top' man in the cabinet.

Observers of the Washington scene consistently report that George Humphrey, secretary of the treasury, is the stand out among the distinguished personnel who form the president's cabinet. His ability to grasp problems in relation to the overall situation and his willingness to undertake their solution without preconceived notions make him of great value to the administration.

Generally ranked as the next best men are Attorney General Brownell and Secretary of Agriculture Benson. Mr. Benson has been particularly impressive because of his forthright effort to reduce the enormously costly subsidy program. This hardly makes him a popular figure in some farm circles but even his critics have been forced to admire his honesty and courage.

Another high-rated cabinet officer is Interior Secretary McKay, former governor of Oregon, who has proved somewhat of a surprise in Washington.

It will be interesting to see how members of the Eisenhower cabinet rate when they are more time tested—a year or so from now.

Senator Morse Is Biggest Wind Bag --- And Expensive

Senator Wayne Morse's long-winded speech in the U. S. senate recently wasn't just a lot of hot air. The words he spoke for 22 hours were expensive—to the tune of $10,080 of our money.

His speech cost the taxpayers $7,476 to have it printed in the Congressional record. Another $2,604 was required to insert 31 pages in the record of telegrams he received on his speech.

And all of this achieved little more than to give Senator Morse the childish satisfaction of proving that he is the biggest windbag in Washington.

Bank's Fixing of Own Hours Better Than Having Law Do It

The First National bank of Upland, along with other banks in this area, are planning to change their banking hours beginning June 1. During June, July and August the local bank will be open until 6 p.m. Friday and closed on Saturday.

This approach to establishing its own hours is far better than the proposed state law requiring all banks to be closed Saturdays.

It is amazing that the banks are accepting this proposal in Sacramento. In fact the bankers are reported to be supporting it. In other words, it appears the banks are asking for this type of regulation.

On some days, bankers cry against having legislators or governmental administrators telling them what to do. In this instance, lawmakers are telling them they cannot open on Saturdays.

In some instances, banks being closed Saturdays would work a very definite hardship in some communities and for some local institutions.

Unless regulation is absolutely necessary, most people don't like it. It seems a voluntary approach to regulation of one's business hours is far more democratic. Unless the banks rise up in protest against the proposed law, they can expect little sympathy when they oppose regulations in general.

No Depression --- That's View Of U. of C. Provost

Are we heading for a recession or a depression?

This question was answered by Dr. Gordon S. Watkins, provost of the University of California at Riverside, when he spoke at the recent second annual economic conference of Riversid and San Bernardino counties.

He spoke at considerable length in making his points that America is strong and able to withstand the burden of changing economic conditions. But we turn to his conclusion for a thumb nail summary of his highly important speech:

"If this analysis of our economic system has revealed anything, it is that the American economy is fundamentally sound and has a potential for expansion which even the most pessimistic cannot deny.

"Unless we make childish and stupid mistakes, which often issue from the defiance of sound economic policy by sectional and selfish interests, our economic system will not experience a prolonged depression and certainly not collapse in the foreseeable future.

"The outlook for expanded production and increasingly wide distribution of wealth and income is promising. A new era of human well-being lies ahead for the human race if wisdom, justice and peace dominate our motives and our relations.

"Upon the material basis of our existence we raise a superstructure of social, moral and spiritual values that will give life and expanded meaning and lead us to horizons of happiness and self-realization not yet equalled in the long history of the human race."

A Woman's Slant On What Russian Stores Offer

A group of American editors was recently allowed to spend a week in Moscow. One of them, Mrs. Jane McIlvaine of Downington, Pa., gave a long interview to U. S. News and World Report on her return home.

Much of the interview dealt with her impressions of Russian living standards. She was asked what was in a department store she visited, and answered: "Practically nothing . . . they had just gotten a load of the first spring print dresses—and the cheapest one was $125 . . . ."

"What about shoes?" she was asked. And Mrs. McIlvaine replied: "Shoes are the hardest thing to get. They have a kind of cardboard shoe for which they pay $20. A decent pair of shoes, which really isn't decent by ordinary shoe store comparison, cost $125."

Russian retail stores, like Russian farms and factories, are government ventures. The government decides what the people shall and shall not have and what they must pay.

Euclid Avenue History

Rivalry With Pomona Noted As Water Fountain Added to Spirit

The following is another in a series of articles on the history of Euclid avenue. Mrs. Una R. Winter, the historian, knows personally of the local history due to her long residence here. She has supplemented her personal knowledge through research.

"Jealousy Among Neighbors"
By Una R. Winter

At this time Ontario was Pomona's near-by neighbor and jealousy between them ran high.

Pomona issued an announcement warning all who attempted to buy land at Ontario, that there was no possibility of irrigation water. So George Chaffey, showing that Ontario had water to spare, installed a fountain on Euclid avenue at the Southern Pacific railway crossing. As each train passed by he turned a great jet of water on, which shot into the air for the edification of the passengers, particularly those from Pomona. This large, cement fountain remained in view at the foot of Euclid avenue, filled with flowers and greenery for a good many years.

Again, when Chaffey brothers announced their intention of building a hotel with a coffee palace, Pomona was frankly contemptuous, declaring that the only guests would be jack rabbits. But—the hotel was built.

George Chaffey's quiet sense of humor was responsible for a joke on the Pomona folks. Various church denominations had been given, on application, a free grant of land at Ontario, but the Baptists had not applied.

When the leading lights of the Baptist church—who had been prominent in ridiculing the prospects of Ontario wrote to George Chaffey to ask for a gift site, he gravely wrote back reminding them he had their authority for it that there was insufficient water at this time for the purposes of the baptismal ritual."

Chaffey Era Closed

George Chaffey left for Australia in 1880 to promote other projects. Soon after, W. B. Chaffey sold out all their holdings in Ontario and followed him. The property was sold to the Ontario Land and Improvement Co., which handled all improvement from that time on. The members were as follows: W. L. McNeil, Godfrey L. Stamm, D. McFarland, Col. D. L. Pitcher, F. L. Gissing, Milton and Lyman Stewart, C. E. Harwood and Charles Frankish, resident Manager for many years.

The "Chaffey Era" was practically over when the two brothers left for Australia, but their ideals had been so thoroughly built into the colony, they still influence the present-day residents. George Chaffey visited in Ontario and Upland at various times but he never lived here again.

All development now was carried on by the Ontario Land and Improvement Co. and it deserves much credit for carrying out the Chaffey ideals. In 1903, the United States government paid Ontario the supreme tribute. It was selected as the standard for American Irrigation colonies and a model of an entire colony was made by Federal agencies for exhibit at the St. Louis World's Fair held in 1904.

Do you suppose the prize given to Ontario at St. Louis Fair in 1905, has anything to do with the selection of Upland as one of the two finest residence towns in the United States in 1953?

Awards Given 15 Sea Scouts

Fifteen members of the Upland Sea Scout explorer post received awards at the annual Sea Scout Bridge of Honor held recently at the Fontana Women's club. The event was attended by more than 150 sea scouts and their leaders and guests.

R. K. Wilson, commodore of the Upland post, presided over the meeting and presented Ordinary Rank awards to Peter McNamee, John Settle, Dan Nicholson and Ronald Fox. Able Rank awards went to Roy Rodriguez, Charles Doughty, Oran Zimmerman and Larry Artis.

Warren Childs received a Star rank, and merit badges for seamanship went to Oran Zimmerman, Roy Rodrigues, Larry Artis and Charles Doughty. Merit badges for swimming were presented to Peter McNamee, Raoul Molinar, Ronald Fox, Angel Molinar, Dan Nicholson, Don Murphy, John Settle and Ronald Fisher.

Dancing and refreshments for the scouts and their guests followed the Bridge of Honor. The local post is sponsored by the Upland Lions club.

Farm Magazine Features Local Enterpirse

One of Upland's unique business enterprises, the Van Ness Water Gardens at 2464 Euclid Crescent West, received wide publicity this month when it was featured in a story in the May 2 issue of the California Farmer magazine.

Owned by Mr. and Mrs. Ted Uber, the one-acre farm is one of the largest water lily producers in the nation and possibly the largest of its kind on the west coast. The farm was started by Mr. and Mrs. R. E. Van Ness 20 years ago.

Landscaped with 40 small pools, tiny waterfalls and rustic footbridges, the sloping farm produces enough plants so that the Ubers usually market about 1000 plants a month from February through July. Most of the plants are sent to eastern nurseries by parcel post.

Besides common water lilies, the Ubers also raise rare water grasses and hundreds of other exotic varieties. Also, they plan to open a small gift shop on the premises late this year and sell hand-forged gifts of brass, copper and aluminum.

Youth Symphony Holding Auditions For Young Musicians

Young musicians in the Upland area who wish to play in the Padua Hills Youth Symphony orchestra during the summer may arrange for auditions now, Conductor Jack Feeney has announced.

The orchestra, which is now in its second season, will present several "symphonies under the stars" in the Padua Bowl. Some 50 members will make up the orchestra this year, and Mr. Feeney is anxious to build up the string section.

Young musicians may arrange for auditions by calling Mr. Feeney at Lycoming 5-1445 or Mr. John Campbell at Lycoming 5-2850.

County's Population, Costs Analyzed In Taxpayer's Study

San Bernardino county ranked 46th in per capita budgeted to be spent by the county during 1952-1953, fifty-third in county tax levy per capita for the year, 52nd in assessed valuation per capita, and eighth in population among California counties, California Taxpayers' association reported, in making public its study of 1952-53 budgets of the state's fifty-eight counties.

Total budgeted expenditures of the county for 1952-53 were $24,016,702, an average of $71.63 per person for the 335,300 people in the county at January 1, 1953—midpoint of the 1952-53 fiscal year.

County local tax levy for 1952-1953 amounted to $6,607,220, an average of $19.71 per person.

Taxable value of property in the county on which the 1952-53 county property tax was levied reached $344,035,400, an average of $1,026 per capita.

LETTERS TO THE EDITOR

Policemen, Mailmen Commendation

It has been in my mind for some time to express through your excellent paper some appreciation of our good police and post office services.

The boys are not only rendering efficient service, but are doing it in such a manner as to call forth expression from the citizens. I have heard no criticism, but numerous words of commendation.

Our mail carriers, who come in closest contact with the public daily, are complimented for kindness and courtesy along with efficient doing of their difficult job. And our policemen are just as prompt in every service, always offered in a kindly and understanding manner.

Our city fathers do not receive the homage due them. They serve for a pittance. It is not always a pleasant work. But we quietly take it for granted and say nothing in appreciation.

As ever yours.

Orange Sales Up As Prices Drop

California orange sales showed an increase of more than 50 cars during the week ending May 16 over those of the previous week. Prices, however, weakened as excessively heavy shipments moved forward and the overall decline on all varieties was about 15 cents a box, resulting in an f.o.b. average of $3.55.

Harvesting of the navel crop was virtually completed during the week but sales of that variety will continue to make up the major share of offerings in the markets for the next three weeks.

A steady to stronger demand prevailed for California lemons throughout the week. Sales were about 80 cars ahead of those of last week and prices moved up about 25 cents to an average of around $6.00 a box f.o.b.

New Branch Of First National Opens Friday

Designs to meet the needs of a fast growing community is the new E street branch of First National Bank of Ontario, at Euclid avenue and E street, slated for formal opening Friday.

Open house for the public will be from 5:00 to 9:00 p.m. with conducted tours of the beautiful new building, refreshments, souvenirs, and treasure chest gifts, for key holders who qualify.

In the receiving line will be Oscar Arnold, who served the First National Bank of Ontario for many years as its president; his son, R. V. Arnold, who has succeeded him, Alan E. Swinler, vice president, who will manage the new branch office, and members of the board of directors. All personnel will be at their posts to explain functions of the new bank, which offers a number of innovations.

Included in outstanding features are new style teller counters which can be utilized for an increased number of clerks during rush hours and replace the teller cages so long associated with banking.

Unusual features include the pink terrazo floor of the main lobby, which contrasts with gleaming walnut wainscoting, walnut formica counter tops, louvered windows and flourescent lighting.

A corridor will connect from the lobby to the parking lot and this, with the main lobby, will serve as wall space for a display of pictures by the Chaffey Community Art association.

On the second floor are director's room, an employes lounge with connecting kitchen completely electrically equipped, store room, and rest rooms.

The building is air conditioned and has an adequate heating system. All mechanical equipment is located on the main floor in a special room for that purpose.

"We have felt for some time that this fast growing area must have two locations for the First National Bank of Ontario to meet the needs of the people," said R. V. Arnold. "The new branch is the result of many months of planning, and we hope that our open house will be attended by several hundred from Ontario, Upland, Chino and Cucamonga."

He said this week that the new Chino branch will undergo immediate construction and should be ready for openings about October 9.

'Friendship Boxes' Drive Nears End At Grammar School

Students at Upland Elementary school this week are completing their contributions for the Junior Red Cross "friendship boxes" which will be sent to underprivileged children overseas.

About 50 boxes are being filled with items including toothbrushes, toothpaste, school supplies, and washcloths, according to Mrs. Opal Hawes, who has charge of the two-week drive.

Each class is responsible for filling several boxes. The drive was launched with a school assembly. The boxes will be sent to children in Korea, Holland, France and other European countries.

"Coop" Dance School Opens Studio Here

Opening Saturday in a local studio will be the Cooperative Dancing school, which for 10 years has had a studio in Pomona and for five years a studio in Ontario. The Upland studio will be at 113 North Second avenue.

The dance school provides classes for children 3½ years of age and older. Classes are limited to eight students.

Ballroom classes are also planned for teenagers and adults.

Upland Top City In Heart Drive

On a percentage basis, Upland ranked highest of all the cities in the county for donations to the Heart fund during the drive in February, Fire Chief Howard Paulin revealed this week.

Next to San Bernardino, Upland turned in the largest sum of any city in the county with its total of $257. The money was collected in plastic hearts which were placed in business houses.

In a letter to Chief Paulin, Mrs. Ellis L. Spackman, executive secretary of the San Bernardino County Heart association, congratulated the chief and firemen for their excellent work in securing donations.

Total amount collected in the county this year is approximately $10,000, Mrs. Spackman revealed. This represents an increase of nearly $4,000 above the 1952 figure.

Upland's contribution was more than twice that of Fontana and more than four times the Ontario donation.

Dates Listed For Graduation

As the month of June draws near, hundreds of Upland youngsters are looking forward to the end of the school term and the advent of summer vacation.

For many students the coming month will mark the end of their attendance at various schools; and graduating classes will receive diplomas at a number of graduation exercises.

Following is a list of graduation and baccalaureate programs at Upland and Chaffey schools:

May 26—Playday program for graduating sixth graders at Upland Elementary schools.

May 31 — Baccalaureate exercises for Upland college and Upland academy graduating classes at the Brethren in Christ church, 8 p.m.

June 2—Upland academy graduation exercises in the college chapel, 8 p.m.

June 3—Commencement exercises for the Upland college graduating class in the college chapel, 10 a.m.

June 7—Baccalaureate exercises for Chaffey high school and college graduating classes in Gardiner W. Spring auditorium, 8 p.m.

June 11—Commencement exercises for the Upland Junior high school ninth grade graduating class in the Elementary school auditorium, 8 p.m.

June 12—Graduation exercises for Chaffey high school class of 1953 in the Gardiner W. Spring auditorium, 8 p.m.

June 13—Commencement exercises for the Chaffey college graduating class in the Gardiner W. Spring auditorium, 8 p.m.

Pasadena Playhouse

Poppin' pistol in one hand and wizard's wand in the other, Broadway-London stage and screen star Douglass Montgomery scintillates in "Two for Tonight", colorful footlight double bill, opening at Pasadena Playhouse on May 28.

C. K. Chesterton's "Magic" and George Bernard Shaw's "The Shewing Up of Blanco Posnet" will find Montgomery alternating roles in a brilliant frame work of his first American return engagement.

Upland College Will Award B. A. In Theology To Student

Morris Sider will be awarded a B. A. degree in theology, rather than a doctor's degree as was reported last week, when graduation exercises for the Upland college class of 1953 are held in the college chapel on the morning of June 3.

The degree of Bachelor of Arts is the highest degree awarded at the local institution, college officials point out.

Mr. Sider received his regular bachelor's degree in the spring of 1952, and continued his education this year.

Mesa Growers To Hold Open House

An open house program for all members of the association will be held in the Cucamonga Mesa Growers packing house from 11 a.m. to 2 p.m. June 2, it was announced this week by Walter V. Moffitt, president of the association.

A buffet luncheon will be served at 12 noon and citrus ranchers are invited to bring their wives and families.

Growers will have an opportunity to meet with Cucamonga Mesa Growers directors and employes, and officials of Sunkist Growers. Exchange Lemon Products and Exchange Orange Products companies will be represented with samples of their products, and will serve lemonade and orange juice. Items made by these two companies will also be on display.

All departments of the association will be open for inspection, according to Mr. Moffitt.

Early Inventor

Credit for the invention of the gasoline motor car sometimes is given to Siegfried Markus, a German, who, in 1875, constructed a crude machine which actually ran.

Lions Hear Plea For Beet Sugar

If Californians consumed more state-produced sugar, the beet sugar industry would not have to seek half its customers elsewhere, Frank Weaver told members of the Upland Lions club in the Upland Woman's clubhouse at noon Thursday.

Representing the four sugar companies in the state, Mr. Weaver illustrated his informative talk to emphasize the point that beet sugar is identical in all qualities with cane sugar and that it can be used for all purposes. Beet sugar sales are gaining and the entertaining and effective speaker said increased sales in California would further increase returns to farmers and workers.

Vic Lamont was installed as a new member of the club. Reginald Taylor, long-time member of the Ontario Lions club, was a guest at the meeting.

Lowell Donnell was program chairman. This was the first meeting for Joe Seitz, recently installed as president.

Mr. Donnell announced that Dr. John T. Middleton will be the club speaker today. He is a member of the University of California experiment station at Riverside and will speak on "Smog".

The Louisiana purchase during the administration of Thomas Jefferson as president of the United States almost doubled the area of the nation.

Vance Miller Will Attend Red Cross Swimming Course

Vance Miller, son of Mr. and Mrs. John C. Miller of 300 Vernon drive, has been selected by the Upland Red Cross chapter to attend the 10-day course in swimming at Camp Tulequoia near Fresno in June.

The session, which begins June 18, will qualify the young Uplander to teach swimming in Red Cross classes. Camp Tulequoia is the national Red Cross acquatic school.

A Chaffey college student, young Miller is an accomplished swimmer and a member of the Chaffey swimming team.

Swihart Children Take Several Awards At Fair

Among the top prize winers in the Chaffey fair livestock judging last Friday were the three children of Mr. and Mrs. Donald Swihart, 380 West Ninth street, who took five blue ribbons and a number of lesser awards for their entries.

Jan, a fifth grade student at Upland Elementary school, walked off with both a first-place award and the grand champion ribbon for Valentina, her Sanaan nanny goat; a blue ribbon for her baby nanny, a blue ribbon and a third place ribbon for pigeons and a blue ribbon for a chicken.

Nine-year-old Patsy, a third grader, took a blue ribbon for her Togenburg goat, a second-place award for a baby nanny goat, and fourth place awards on a chicken, a pig and a duck.

First-grader David, 7, got his awards on a duck and a chicken.

The three youngsters, who attend Upland Elementary school, spend many hours caring for their pets, their mother reports, and one of their major current projects is bottle-feeding a set of month-old nanny goat twins.

Jamieson's Art Praised

An honorable mention for his gouache painting titled "Street" was awarded Tom Jamieson, son of Mr. and Mrs. N. R. Jamieson of 1655 West Ninth street, during the Chaffey Student Art show held in conjunction with the Chaffey Fair last week. Jamieson is a college sophomore.

Seven Explorer Scouts Enjoy Fishing Trip

An all-day fishing outing at Lake Henshaw was enjoyed last Saturday by seven members of Upland Explorer Post 1. The scouts who attended were those who had qualified for advancement at the recent court of honor.

Troop adviser Ian Richardson and Al Tartaglia had charge of the group, and attending were Homer Losson, Charles Reno, Richard Krebill, Richard Stowell, and Jay Henion.

The boys spent the day fishing from rowboats, and reported good catches.

Silver Harvest Interest Gains

With interest and crowds increasing, the next Silver Harvest award will mark the tenth week of the special merchandising program.

Edward J. Camp, 1069 Carnelian avenue, Cucamonga, wasn't present but he won $15 while E. P. Tynan, 247 North Laurel avenue, was present and won $15.

Names of seven persons were called before the name of a person present was selected. George Haack, head of the chamber of commerce businessmen's committee, was in charge.

Persons who failed to win because they were not present included Jennie Lopez, 1413 Chaffey street; E. E. Cowding, 1003 Mesa court; Lucy Ricci, East Ninth street; Betty Harmon, 289 North Third avenue; M. Stallard, 716 Shasta Wey, Upland; John Krau and Mrs. George Moss, Ontario.

Jerry Hayes President

20-30 Elects New Officers

Retiring 20-30 president Boyd Harris will present the club gavel to newly-elected leader Jerry Hayes at a meeting late in June when installation of officers is scheduled. Mr. Hayes was elected at the club's regular meeting last Thursday night.

Named to serve with the new president for a six-month term were Ed Wilson, first vice president; John Engle, second vice president; George Ludwig, secretary and Rex Gaunt, treasurer. New board members are Bryce Evans and Dick Grable.

Plans for a ladies night in the near future were discussed at last week's meeting, and a definite date for the event will be set when the group meets tonight.

One of the heaviest loads to carry is a bundle of bad habits.

Early Sign-Up Of Kindergarten Pupils Is Urged

Registration of all pupils who will attend kindergarten in Upland schools during the 1953-54 term at the scheduled sign-up next week will greatly facilitate school officials in making arrangements for the coming year, according to District Superintendent Harold Cook.

An increase in the number of kindergarten students is expected, Mr. Cook points out, and early registration of all pupils will help in estimating the amount of supplies which should be purchased and in assigning teachers to sections.

Kindergarten registration is scheduled from 8 a.m. to 4 p.m. on May 27, 28, and 29. All prospective pupils living north of Foothill boulevard should be registered at Sierra Vista Elementary school and those living south of Foothill boulevard are to register at Upland Elementary school.

Eligible to attend kindergarten next year are all children who will be five years of age on or before Dec. 1, 1953. Birth certificate proof of age is required.

Local Students Score At Fair

Scores of Upland students were among those who received awards for projects and livestock exhibited at the Chaffey fair last week end, according to the list of award winners.

In the exhibits of shop work, Bob Hannah and Raoul Molinar took first for wrought iron, Larry Wood a second and Ken McCullough a third. James Richardson took a third for art metal. For forging, Floyd Canup took a third and in the sheet metal exhibit, Louis Ledesma and Richard Krebill both received firsts and Glenn MacRill a second.

Gerald Steinle received a second for wood shop projects, and Glenn MacRill and Ken Meyers each received thirds for first-year exhibits in machine shop.

In livestock and poultry competition on the South Field Ronald Fullner and Gerald Calhoun were among the top scorers, and several first-place awards went also to Homer Losson. Stuart McLaughlin placed third with California junior bucks in the rabbit division. Winners in the Farm Mechanics display for tables and bench exhibits were Harlan Mikels and Harold Palmer.

Kansas Picnics

Abilene and Dickinson county, Kansas, picnic and reunion will be held in Verdugo park, Canada boulevard, opposite Glendale college, Glendale, at 10 a.m. May 31. This has been designated by the groups as "Eisenhower Day." Many residents in the Upland district will be interested in the celebration.

Great Britain uses about 11 times as much tea per capita as does the United States.

Half Chaffey Seniors Expected To Enroll At College In Fall

Approximately half the graduating senior class at Chaffey high school is expected to enroll at Chaffey college in the fall, it was announced by Director Leo Wadsworth this week after the high school seniors visited the college campus and asked for programming conferences.

Sixteen sections of United States history and civics and social problems classes from the high school have visited the college with their teachers to see the various departments during class time.

Those students who have asked for conferences with administrators are being given appointments for programming. Those who are undecided may make appointments for conferences later, Director Wadsworth announced.

Local Spellers Win at Chaffey

Upland, Cucamonga and Alta Loma students were among the top honor winners at the annual spelling contest in connection with the Chaffey fair Saturday.

Seven schools competed and Upland spellers were prominent in the list of winners. The two best spellers among all the eighth graders are Howard Collins and Michael Shaler of the Upland junior high school. They tied for first place. Howard is the son of Mr. and Mrs. L. L. Collins, 1193 Winston court, and Michael is the son of Mrs. Margaret Shaler, 711 Washington boulevard. Jean Carpenter was third among the eighth graders.

Among seventh grade winners are Marquita Ornelas of the Upland junior high school and Pat Perdew, Cucamonga Central school.

Honorable mention awards were given to outstanding competitors including Lynn Hollingshead, Cucamonga Central; Carol Murray, Alta Loma; Elizabeth Buchenau, Brenda Porter, Dan Nicholson, Pat Kerns, Marina Ornelas, Jane Coltrin and Barbara Rathman, Upland junior high school and Mary Lollier, Etiwanda.

Librarian Attends Meetings

Miss Lucile McDonald, Upland librarian, will attend a meeting of the Southern California Association of Public Librarians next Tuesday in Los Angeles. The meeting will be devoted to planning for the American Library association meeting in Los Angeles in June.

On Tuesday Miss McDonald represented the local library at a meeting of West End librarians at Scripps college in Claremont when Raymond Hold, Pomona City library head, reported on a recent Library Standards committee meeting in Sacramento. The report was devoted to the methods of standardizing procedures in libraries.

No doubt about it...
Chevrolet trucks must be the best buy!

This year—for the 12th straight production year—truck users are buying more Chevrolet trucks than any other make. That couldn't be true unless Chevrolet trucks offered more of what you want.

Already, 1953's official sales figures tell a remarkable story of clear-cut and decisive preference for Chevrolet trucks. But, this is not surprising, for truck users everywhere are discovering how far ahead of all others Chevrolet trucks really are.

They are discovering things like the *tremendous new power* in advanced Loadmaster engines in heavy-duty models . . . the *remarkable gasoline economy* . . . the *extra ruggedness and strength* of heavier, more rigid frame construction.

And, in addition to all these advantages, *the Chevrolet line lists for less than any other trucks of comparable size and capacity.* So, before you buy *any* truck, stop in and see us.

Walker's Market Serves Throng

Walker's market celebrated the opening of its remodeled store with the biggest business week end in its history last week.

All departments in the expanded store reported new records in the volume of business and so huge was the crowd patrons had to stand in line outside, awaiting their turn to get inside the structure, according to Harry Gray, manager of the four-store food organization.

Expansion of the parking lot was included in the store enlargement program but the paved area for cars was too small to handle the vehicles.

Frank Miller, merchandise supervisor, personally greeted hundreds of persons and congratulations were also showered upon Melvin Dinger, meat department manager.

Clarence Gray and Mrs. Bessie Walker are owners of the store and they shared in greeting the biggest crowd ever to be served at an Upland store.
